Hop On Over to The Betton Hills Easter Egg Hunt!

Karen Weimer

The bunny is back with plenty of eggs! Join your Betton Hills neighbors for an old-fashioned Easter Egg Hunt in **Chittenden Park** (on Sycamore and Chouteau Avenue between Lee and Spruce Avenues) on **Easter Saturday, April 16th, at 11:00 A.M.** All ages welcome! **Please drop off 1-2 dozen plastic eggs (per family) filled with treats at the park before 10:30 AM the morning of the hunt so the Easter Bunny can get them hidden before the youngsters arrive (stash them on the bench under the tree in the center of the rose garden). Or drop them off to the basket on the front porch at 1503 Hickory Avenue (across from the park) anytime the week of April 11th.**

We will gather at 11:00 A.M. Egg Hunt will commence at 11:15 sharp. Please remember to bring your Easter baskets!!! As in previous years, we will have a separate hunt area for the "under 3's", so don't hesitate to bring your youngsters! Photo ops will abound! Come meet some new neighbors and have fun with old friends. If you would like to help or have questions, contact Karen Karen Weimer, (850) 510-5573.

Upcoming Events

Easter Egg Hunt
Saturday, April 16
11:00AM – 12:00PM
Chittenden Park

BHNA Block Parties Season
April – June

BHNA Annual Neighborhood Garage Sale
Saturday, May 7
8:00AM – Noon

Betton Hills Cruise-In & Ice Cream Social
Saturday, May 7
1:00-3:00 PM

Happy 50th Birthday to the Betton Hills Neighborhood Association!

Eliza Hawkins, BHNA President

Did you know our neighborhood has an interesting history? This area was a small part of a 23,000 acre land grant (known as the Lafayette Land Grant) made by President John Quincy Adams to the Marquis de Lafayette in 1825 for his revolutionary war service. Subsequently 1200 acres of the Lafayette Land Grant was purchased by Turbot Betton on September 20, 1827. That purchase encompassed land that lies roughly between present day Thomasville Road and Centerville Road and north from Seventh Avenue up to Potts Road encompassing Betton Hills, Betton Woods, and Goose Pond. Part of that property eventually ended up in the possession of Guy Winthrop who, with his wife Pat, began to develop it in the late 1930's and thus the creation of the Betton Hills Neighborhood! Not long after, in 1972, the Betton Hills Neighborhood Association (BHNA) was established.

The BHNA has had 50 year history of ensuring our neighborhood retains its charm and community spirit by sponsoring family-friendly events and ensuring its members are well informed on events which impact them. Many of these efforts are the reason Betton Hills has won the City of Tallahassee and Leon County Neighborhood of the Year Awards several times over. Below are a few of the historical contributions by the BHNA:

- The BHNA worked in concert with the City to:
    - eliminate house flooding from McCord Pond to Laguna Pond;
    - minimize Blair Stone Road cut-through traffic affecting Betton Hills and Woodgate;
    - integrate TMH better with the neighborhood by lessening noise and lighting, guiding traffic, and establishing building heights;
    - prevent the four-laning of Betton Road and to beautify the road with plantings;
    - create sidewalks by major roads for walking and biking safety while minimizing impact on homeowner yards

- The BHNA sought donations from neighbors to purchase attractive Betton Hills signposts and install a Proctor sculpture in McCord Park

- The BHNA has historically sponsored numerous annual social events and has actively supported neighborhood schools.

- The BHNA historically has sponsored Arbor Day plantings throughout the neighborhood and organized work days to improve Betton's native park ecosystems.

In our fiftieth year, the BHNA is very much looking forward to resuming with gusto many of our pre-pandemic activities: Block parties, garage sales, food truck days, Fall Festival and other great events.

Happy Birthday, BHNA! And here's to the next 50 years of making sure our Betton Hills Neighborhood remains a wonderful place to live!

A Busy BHNA Arbor Day, 2022

Donna Legare

The BHNA celebrated Arbor Day on Saturday, January 29. Sixteen sturdy adults and six adventurous children braved the 30-degree temperatures to improve habitat for wildlife and to make a more beautiful place for neighbors at McCord Park. We fueled up with hot homemade cinnamon buns by **Jody Walthall** and cranberry bread by **Mary Kay Falconer**. There was delicious coffee from Lucky Goat and hot chocolate for the children.

The Work: **Tom Schulte** led a crew to clean out the two wood duck houses and the bluebird nest boxes. When they approached the wood duck house on Trescott Pond, they knocked on the house and were super surprised to see a Black-bellied Whistling Duck zoom out and onto the pond! I am glad that two of the children were along to see this – **Nicolas Waits** and **Andrew McLaughlin**. In addition to cleaning the nest boxes, we replaced one nest box that had been vandalized and installed another box, predator guard and pole near the native azalea patch towards Thomasville Road. We now have six bluebird/chickadee nest boxes in the park!

Arbor Day Volunteers Smile for the Camera in the Woodland

We focused our energy on invasive plant removal in the woodland between the pond and Thomasville Road (near the Komodo Dragon statue). Mary Kay Falconer led a group of volunteers who removed and bagged the bright red ardisia berries and then dug the plants out. Jody Walthall and his assistant from Native Nurseries, Nick Ferendo, attacked the bigger plants – primarily mimosa, privet, Ligustrum and chinaberry. Another team - **Vanessa and Richard Crisler** and **Wilson Baker** worked on the opposite side of the woodland working their way in, digging ardisia and other invasives, primarily Taiwan cherry which is aggressively spreading throughout the woodland.

It is amazing to see all that was accomplished in a little more than two hours – we warmed up fast once we got working! We planted a white oak and a swamp chestnut oak tree in the woodland near Armistead Road and two spruce pines in Chittenden Park with the help of **Holly Thomas**. The City of Tallahassee provided twenty-five bales of pine straw that we spread around previous plantings throughout the park.

If you contributed to the Carol Bellamy Fund when you paid your dues, you helped to fund these activities. Thank you. One volunteer and new BHNA board member, **Claire Watkins**, suggested we plan quarterly workdays and is willing to do so. Watch for these.

The Reward: The morning ended back at the coffee table which was set up near the kumquat tree and new bluebird house that replaced the vandalized one. Addie Watkins was sipping hot chocolate when a stunning male bluebird poked his head out of the bluebird house and then proceeded to perch on top of the house. Addie was enamored. We were just six feet from him. That was a perfect finale for our 2022 Arbor Day!

Thank you to the Participants:

Donna Legare and Jody Walthall
Nick Ferendo
Vanessa and Richard Crisler
Mary Kay Falconer
Tom Schulte
Wilson Baker
Jennifer Butler
Jordan, Bob and Teddy Biehl
Tom and Nicolas Waits and Andrew McLaughlin
Kris and Ross Ellington
Robert, Claire, Addie and Lorelei Watkins
Holly Thomas

Join the McCord Park Habitat Patrol

Mary Kay Falconer and Donna Legare

When and Where: Saturday, May 14, 9am – 11am. Meet at the Armistead Road entrance.

Want to foster biodiversity in our park? Create better habitat for birds, insects and other wildlife? Give our native trees and flowering plants a chance?

Join us in May for invasive plant removal. We will be working mostly on coral ardisia removal, bagging any remaining berries, and then digging the plants. Bring pruners or scissors for cutting the berries. We will supply the bags. Bring a shovel for digging plants. Children can help even with a trowel to dig or pull the tiny seedlings that are thick under the larger ardisias. Wear long pants, boots or sturdy sneakers. Bring your gardening gloves and a water bottle.

This is rewarding work; we are really making a difference in the woodland area west of the pond between the paved path and Thomasville Road. If you would rather patrol the edges of the pond for litter, that would be appreciated as well.

We will be scheduling periodic workdays throughout the year. Come to one or all of them!

McCord Pond Litter Removed

Mary Kay Falconer

February Work Sessions at McCord Park: A Cleaner Pond and Healthier Habitat for Wildlife

Isn't it great that we live in a neighborhood where people pitch in to help even when they do not live in the neighborhood!

The Work Day

On February 5, 2022, 19 FSU students volunteered on a wintry morning to remove invasive coral ardisia plants from the same woodland where we worked on Arbor Day the previous Saturday. The students from the Environmental Services Program (ESP) removed and bagged the bright red berries and shoveled out the plants. They made a big dent! Thank you to the following:

Thomas Windisch, Nate Merrill, Alexis McWilliams, Wesley Mulopon, Marion Knowles, Shelby Wright, Teddie Sprague, Kate Lovett, Hunter Gould, Isabella McLain, Gina Givens, Jenna Norton, Emily Dillon, Emily Chapiro, Lindsey Johnson, Jacob Javor, Olivia Beams, Anne Rodney, Joshua Castillo. They were led by BHNA neighbors Mary Kay Falconer, Jody Walthall and Donna Legare.

The Follow-up Work Day!

A few days later Jody Walthall and a Native Nurseries employee Brendan Winter returned and continued to remove the larger invasive plants – camphor trees, Ligustrum trees, exceptionally large Chinese privets, Taiwan cherry trees, huge nandinas, chinaberry trees. They worked for four hours. Donna Legare joined them for an hour of clipping and bagging more ardisia berries so the remaining plants will not be able to reproduce this year. Thanks to Native Nurseries for the "loan" of their employee and to the City of Tallahassee for debris removal.

On the Pond

Finally, **Hope and Jesse Suber** who live in an adjoining neighborhood hauled their kayaks into McCord Pond and spent hours removing all litter they could reach. They were not able to breach the mats of invasive water hyacinths which trapped Styrofoam cups and other fast-food litter. However, the City of Tallahassee promises to remove these mats of hyacinths and trash. Jesse and Hope have conducted their kayak litter patrol on Arbor Day for several years, but it was too cold for kayaking on Arbor Day this year. No problem; the pond looks great. **Thank you Hope and Jesse!**

McCord Little Library: Restored!

Mary Kay Falconer

Our little "sharing" library in McCord Park received some much needed attention over the past couple of months. We were fortunate to have a couple of neighbors step up to fix and provide a complete "make over" of the library. An initial assist was the replacement of cracked plexiglass on one side completed by Tom Waits. Then, Mike Dugger took on a complete overhaul of the structure by replacing all of the hardware, replacing the plexiglass on both sides, and painting the exterior. The outcome looks like the work of a master craftsman! Visit the Little Library in McCord Park to check out the work . . . and share some books!

Since both neighbors donated their skills and time, the upgrades required only a minimal expenditure. The BHNA thanks our neighbors for responding to this need.

Here are the invisible Mike Dugger and Tom Waits
putting the finishing touches on the McCord Little Library.

Are You Car-Less Curious? Check Out Mobility Choice.

Mary Kay Falconer

Recently, I have been expanding my understanding of mobility choice in our community from Betton Hills residents Mari-Jo Lewis-Wilkinson and Ken Wilkinson. They've decided to live without owning a car! Why you ask? Well, they did not particularly enjoy driving. They had no desire to be the traffic that is often "stuck in traffic." They were also compelled by an interest in minimizing harmful environmental impacts and reducing the need for more capacity on our roadways. While they had some experience with public transit in the Tampa area a couple of decades earlier, their recent retirement, Betton Hills' proximity to downtown, and other resource comforts made this shift conceivable. Of course, they needed good answers to all of their questions about "how to" get groceries, go to doctor appointments, fill prescriptions, attend events at favorite venues, and visit an elderly parent in Georgia. After that, they asked their friends to talk them out of "not owning" a car. Pushback from friends was insufficient. They went for it.

Their approach has multiple mobility options. It is the ultimate in choice and is easier than one might think. They walk and enjoy it. They even consider themselves "urban hikers." They use public transit. This is an option that works well for them since they live relatively close to a bus stop along a major arterial in the community. An app on their cell phone makes payment user friendly. Masking on buses has been required and enforced during the pandemic. The bus route schedules work well for short trips to and back from stores. They ride their ebikes when the routes to the destinations are safe from motorized traffic. Uber fills in for some evening trips. Renting a car works for longer distance trips outside the state. There are "no car ownership" credit card and insurance options that allow them to have the necessary coverages when renting a car.

There are many benefits. Saving money is number one. Public transit is affordable and half price for those 60 and over. Uber trips have introduced them to many folks with interesting and impressive life pursuits, such as, a chemical engineering graduate student from Lebanon, a violinist from Venezuela, a probation officer, military veterans, and single moms. They can stay physically active with the expected positive health outcomes. The headaches of maintaining a car are no longer felt. Vacations to major metropolitan areas that rely on public mobility options have also been very appealing. Their recent trip to Washington, D.C. on an Amtrak train in a cozy roomette was delightful!

So, what is on their wish list for improving mobility choice in our community? Resumption of the downtown trolley would be a plus. More safe passages for walkers and alternative mobility modes on our major transportation corridors would be helpful. More businesses, such as Zip Car, that allow easier access to a motorized vehicle for rare instances would be another boost. For me, for now, I'll keep my old car. But I will be adopting more car-less mobility choices for trips within the community as well as those far away.

Call Your Neighbors on Over!

Michael Bannister

It's a great time to share this warm, not hot and humid season with your neighbors by hosting a block party! The BHNA wants to encourage residents to host a block party anytime between April and the end of June. The BHNA will sponsor a main meal and accoutrements, the host will provide the venue, and neighbors can bring side dishes. It can be as fancy as a sit down dinner or as informal as a paper plate with hot dogs and beans setting in your lap. It's all up to the host or hosts. It is also a great way to welcome new neighbors or renew acquaintanceships with longtime neighbors.

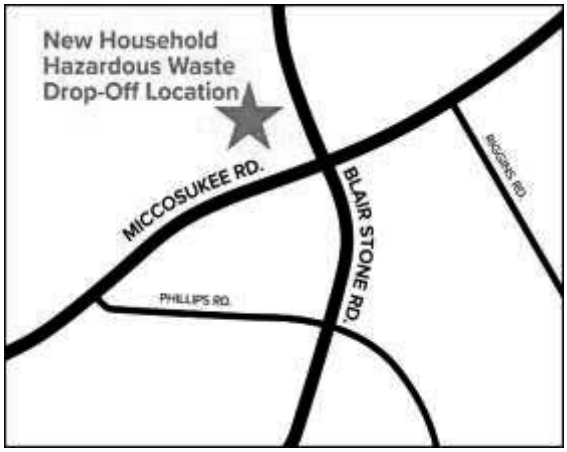
Hose off the patio, put out some folding chairs, and have a party!

For additional details or suggestions, please email Mike Brezin, mbrezin188@gmail.com

When: Your choice from April through June.
For $50 reimbursement from BHNA, tell us how many people attended, send us a picture, and include your name and address. Email to: president@bettonhills.org We'll send you the check!

Announcement: *NEW!* Household Hazardous Waste Drop-Off Site

1800 N. Blair stone Rd. (Public Works Headquarters at Blair Stone Road and Miccosukee Road intersection)



Leon County recently opened an additional Household Hazardous Waste Drop-Off site that accepts limited items for your recycling convenience. Citizens are encouraged to access the new site when staff is monitoring from 8 a.m. to 5 p.m., Monday through Saturday. As the first-of-its-kind, the site hours will be updated over time to reflect usage trends. For more information on what waste is accepted, Google: Leon County Hazardous Waste.

Announcement: Making the Most of Compost Workshops

Mary Kay Falconer and Donna Legare

Lucky for all of us, we have neighbors that are making the most of compost. They have adopted an ongoing process for composting vegetable and fruit scraps, coffee grounds, egg shells, and other appropriate food items that we would normally toss in a landfill. There are different techniques that work but all involve heat—lots of heat! Some create a fenced or cordoned off area with crates in the back yard where they dump appropriate food items, leaves, soil, and other organics. Donna Legare describes this technique in an article on the Betton Hills NA website: https://www.bettonhills.org/2022/01/make-your-own-compost/.

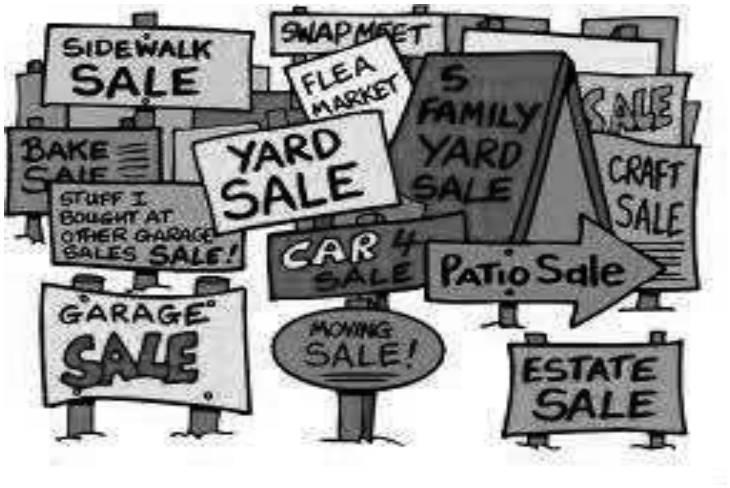
Others have a process that involves a sturdy compost bin or chamber that is properly aerated. Some of the same materials that go in the more open bin are used for this technique too. The bins might have a handle that allows turning the composting material. Another technique is a service in our community called Compost Community. This is my preference! It is described at https://www.compostcommunity.org/. I put my scraps in a 5 gallon bucket and take it to the composting site at the Frenchtown Urban Farm. I pay a very reasonable fee for this service. You can also arrange pick up at your house or it might be possible for us to select a pick-up location that will work for several neighbors each week or month.

We would like to schedule composting workshops for Betton Hills residents. Please contact us if you are interested in learning more. A contact email is: MaryKayFalconer39@gmail.com.

'Round'em Up and Move'em Out: The BHNA Garage Sale is Back!

Melissa Jacoby

Years have passed since the last BHNA Garage Sale and you're wondering how you possibly could have accumulated so much stuff! Don't worry. We have an opportunity for you to declutter. On **Saturday, May 7, from 8 a.m. until noon**, BHNA will sponsor its annual neighborhood garage sale.



This is a chance to share your less needed and unloved household and personal items with someone who will be thrilled to have them. Get some spring cleaning done, meet your neighbors and add a few extra dollars in your pocket. Or you can donate those dollars to a favorite charity.

To promote the community garage sale, BHNA will advertise the event on Craigslist, in the Tallahassee Democrat and on the BHNA website and Facebook. Shoppers will be directed to the BHNA website for a list and map of participating households. We'll also announce the event with our BHNA signs at prominent neighborhood entry points.

WHAT YOU'LL NEED TO DO: Register your sale at: **https://www.bettonhills.org/garagesale** by Saturday, April 30th. Get your stuff together! On the day of the sale (May 7) place a sign in your yard so shoppers can easily find you. Even if you don't get around to registering, we still welcome your participation.

Updates: Infrastructure Improvements in Betton Hills

Betton Road Improvements

Betton Road opened from Thomasville Road to Lee Ave. in late March. The stormwater, water, and road improvement efforts are now focused on the segment between Lee Ave. and Centerville Road. The current schedule calls for the project to be completed by the end of June, 2022. Online updates are available at: https://talgov.com/projects/betton.aspx.

McCord Stream Culvert Project

The current stormwater ditch that runs along the west side of residences on Trescott Road from Betton Road to Ashford Club Apts. will be undergoing a major upgrade in 2022. The BHNA provided a description of the project in the BHNA Fall Newsletter (https://www.bettonhills.org/wp-content/uploads/2021/10/Fall2021-Newsletter-website-pdf.pdf).

Recent updates from the city project staff indicate that they are in the final stages of preparing bid documents. A contractor will be selected within a month of releasing the bid documents and they anticipate construction beginning in 4-5 months. The city contact for this project is Amelia Bryant at Amelia.Bryant2@talgov.com.

Thomasville Road Multiuse Path

On January 31, the Capital Region Transportation Planning Agency (CRTPA) approved the feasibility study for the multiuse path. This vote moves the project to the design phase. The study recommendations (https://crtpa.org/thomasville-road-multi-use-path/) were consistent with the position of the BHNA board early in 2021 and shared in the BHNA Fall Newsletter (https://www.bettonhills.org/wp-content/uploads/2021/10/Fall2021-Newsletter-website-pdf.pdf).

Meet a BHNA Board Member:

Jennifer Winegardner

1. How did you decide to live in Betton Hills, how long have you lived here, perhaps what you do for work/hobbies, etc.?

Hello, Betton Hills neighbors! I look forward to serving on the BHNA Board of Directors. I moved to Tallahassee from Cleveland, Ohio, in '97 when my husband accepted a position at FSU. We first settled in Killearn but soon realized the house we were living in did not work with a growing family. I am a lawyer and some of my clients are homeowner associations. A board member in an association I represented mentioned he was trying to sell a vacant lot on a street off Woodgate Way. A builder who also sat on the same board walked the lot with me and said, "If you don't buy it, I will!" I bought the lot and we built our home. For more than twenty years, I've walked and ran our roads from the time I had babies in strollers, while I trained for marathons (that Doggone Argonne hill, though), and as I transitioned to tennis in the backyard of our resident tennis pro (Hi, Randy).

2. Now that you've lived in Betton Hills for a while, how does the neighborhood compare with your initial impressions?

I live in a little pocket of Betton Hills with neighbors who come out and help after a bad storm and let their kids play in the yard. The holidays are special. I've enjoyed walking up Woodgate to the Oven Park lights at Christmas and pulling costumed kids in a red wagon at Halloween. We are fortunate to be located between Winthrop, McCord, and Oven parks. And we're just a skip and a jump from the midtown food scene. I'm particularly impressed with neighbors who pull together block parties and FSU sports watch parties, and the Betton Hills Ladies Night has been a huge hit. Maybe some other neighborhoods are just as good, but I can't think of one that's better than ours.

3. What prompted you to get involved with the BHNA Board of Directors?

I play tennis with Eliza Hawkins (she's a fantastic player!) and she asked me to get involved. My homeowner association clients are mandatory, which means every property owner is an automatic member and the association is obligated to enforce covenants and restrictions

imposed on every lot. Betton Hills is not a deed restricted community, but the association exists nonetheless although membership is voluntary. There are Articles of Incorporation and Bylaws. Eliza mentioned that the Board was looking at their governing documents and invited me to help with the review. I've prepared the governing documents for other associations and I am happy to volunteer my time and experience for my own neighborhood.

4. What kinds of things would you like to help the BHNA accomplish?

First, I will help the other Board members who are working on the governing document in any way they ask. I am eager to help with some research projects and pitch in on organizational tasks associated with our social events.

Betton Hills Cruise-In and Ice Cream Social!

Mario Taylor

Come One Come All to the 2nd Annual Betton Hills Neighborhood Spring Fest Cruise-In & Ice Cream Social!

This event is a shout out to all "Betton-ites" to welcome spring and show off your favorite Wheels. Whether it's your Stroller, Bike, Little Red Wagon, Hybrid/Electric Car, Classic Muscle, or Model-T - if it's got wheels, bring it on over to Harriman Circle and meet your neighbors and enjoy a fun filled spring afternoon.

There will be an ice cream and dessert food truck arranged by your BHNA!

Special: BHNA members get one free serving ticket per family member. Get yours at the sign-in table. Not a member? Join now (see end of newsletter) or at the sign-in table at the Cruise-in.

In preparation for the upcoming 2022 Hurricane Season starting June 1st your BHNA Board will be providing **free get ready materials and hurricane PREP buckets.**

So ROLL on over and let's fill the Circle for an afternoon of neighborhood family fun before the heat and humidity of summer kicks in.

See you at the Circle!

WHEN: Saturday, May 7th from 1pm to 3pm

WHERE: Harriman Circle

Questions? Contact Mario Taylor at Mariotaylor@comcast.net or 904.222.1855.

2022 BHNA PAID MEMBERS: THANK YOU

The BHNA Board of Directors extends s special thank you to members who have already joined for BHNA's 50th year! If you don't see your name on the list, please renew/join BHNA at: https://bettonhills.org/join.

*Indicates members who contributed to one or more of BHNA's special funds.
